europass

What is **Europass** ?

It is a portfolio of documents developed by the European Commission to support European citizens' mobility.

The Europass website, managed by Cedefop, was launched in 2005 and has received some **100 million** visits so far.

100 million visits

What is **the Europass CV** ?

It is the curriculum vitae layout recommended by the European Commission.

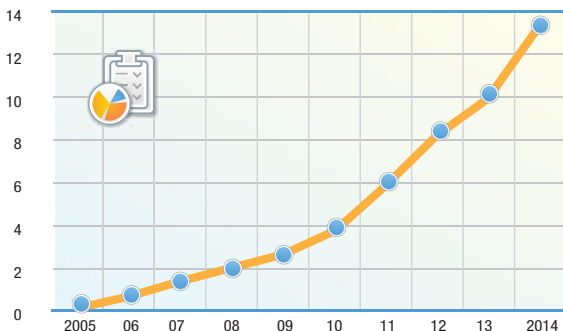

It helps students, workers and job-seekers to present their skills and qualifications in an effective and consistent way when applying for jobs or training opportunities.

What is the **Europass** online editor

- The online editor enables end-users to create and update their CV online.
- It allows end-users to download the CV on their PC, send it by e-mail or export it to the Cloud.
- It is available in **27 languages**.
- It has an intuitive, user-friendly interface, optimised for both desktop and tablets.
- A cover letter can be created online and downloaded with the CV.
- Copies of degrees, certificates, etc. can be attached to the CV to create an electronic portfolio.
- Over **13 million** Europass CVs were generated online in 2014 and about **48 million** in total since launch.

**Europass CVs completed online per year,
2005-14** (in millions)

Who can become interoperable with Europass ?

Any organisation that maintains a CV database or manages an IT system where end-users fill in a profile or an application form is a natural candidate for liaising with Europass:

- ☐ public employment services;
- ☐ recruitment agencies;
- ☐ job portals;
- ☐ HR services;
- ☐ career guidance offices.

Why should you become interoperable with Europass ?

- ☐ Added value for your end-users, eliminating the need to fill in the same information repeatedly on different platforms.
- ☐ Increased attractiveness for your organisation, providing compatibility with a widely recognised European service.

Interoperability in practice

Integrating your system with Europass entails **no financial cost**. Our options are based on widely-used, open standards. You will find detailed technical information on our interoperability options on our dedicated website.

We also provide extensive **resources, documentation** and **technical support**.

<http://interop.europass.cedefop.europa.eu>

upload a Europass CV

Allows users to **create a profile** on your platform starting from an existing Europass CV. By uploading a Europass CV, common fields can be automatically populated with the corresponding personal data.

export CV in Europass format

Allows users to **export personal data** already entered in your IT system. Using our web services, this option enables your clients to produce a graphically formatted Europass CV directly from your platform.
